ABOUT THE EVENT

ABOUT THE EXPO/ CONFERENCE/ CONVENTION

The 2024 Summit taking place at the heart of Dallas, Texas USA is the first ground-breaking Supply Chain and Logistics Summit and Expo. An annual International conference and exhibition that focuses on supply chain management and logistics.

WHO ATTENDS?

Over 6,000 attendees are expected to join from across the globe including Chief Executive Officers, Chief Technology Officers, Chief Operating Officers, Chief Development Officers, Presidents, Stakeholders, Investment Directors, Chief Supply Chain Officers, Chief Information Officers, Chief Digital Officers, Chief Finance Officers and many more.

KEY TOPICS

Exploring the latest innovations within AI integration into the Supply Chain and Logistics industry, the Importance of Data analytics, and the impact it has across industry sectors.

Key 2024 topics include: Automation, Sustainability, Supply chain as a service, Circular supply chains, Risk management and stability, Increased focus on sustainability

AI IN SUPPLY CHAIN: CUT THROUGH THE HYPE

The Global Procurement, Supply Chain AI & Logistics Summit is organized by the American Association of Procurement and Supply Chain Professionals (AAPSCM)®, a Chartered certifying body based in Columbia, SC USA. The event also includes the 1st Global Recognition Awards ceremony in Supply Chain bringing together global professionals and innovators in the Supply Chain, Logistics, AI, and Procurement within the industry.

It is evident that while supply chains remain the backbone of manufacturing, procurement, and logistics operations, COVID-19 has highlighted the issues that plague supply chains, including demand forecasting, flexibility, and optimization. Artificial Intelligence and Machine Learning are essential tools in digital transformation, from preventing disruptions and downtime to improving inventory management and quality of services. This event combines Expo, conventions, and roundtable workshops while working with our industry's audience to probe and explore winning strategies and technologies, utilizing innovations in dealing with the current and future supply chain challenges.

OUR CONFERENCE PROGRAM IS BASED ON EXPO AND CONFERENCE CONCEPT AND KEY TOPICS

- ✓ Facing globalization, increased product complexity, and heightened customer demands, companies are taking up advanced technologies to transform their supply chain from a pure operations hub into the epicenter of business innovation. Using sensors and ever-improving internet connectivity, forward-thinking companies are collecting data at every checkpoint, from the status of raw materials flow to the condition and location of finished goods.
- ✓ Machine learning, artificial intelligence (AI), and advanced analytics help drive automation and deliver insights that promote efficiencies — making on-the-fly route changes to accelerate product delivery, for example, or swapping out materials to take advantage of better pricing or availability.
- ✓ Blockchain - While primarily associated with cryptocurrencies, blockchain, the distributed ledger technology, also ranks high on the list of technologies poised to bring improved visibility and transparency to supply chain processes. Because blockchain creates an immutable record of transactions, the technology is well situated to track the provenance of goods and establish trust in shared supplier information, especially when the parties have competing agendas and don't particularly engender trust.
- ✓ 3D printing allows firms to localize the production of goods closer to customers, allowing for faster turnaround, reduced transportation costs, and greater personalization. Additive manufacturing is also opening doors to easy production of spare parts, enabling companies to slash inventory, cut costs, and create supplementary revenue streams. AI, machine learning, and analytics - By harnessing a combination of technologies like AI, machine learning, and predictive analytics, companies can automate warehouse operations, improve delivery times, proactively manage inventory, optimize strategic sourcing relationships, and create new customer experiences that increase satisfaction and boost sales.
- ✓ The Internet of Things (IoT) – The Industry expects discrete manufacturers, process manufacturers, and transportation companies to spend the most on IoT deployments, primarily to support manufacturing operations and the management of production assets, and, in the transportation space, for freight monitoring and fleet management.

AI IS RESHAPING THE
SUPPLY CHAIN -
SUCCEEDING IN THE AI
SUPPLY-CHAIN
REVOLUTION

WHY SHOULD YOU ATTEND THIS EVENT?

- Uncover the latest advances and innovations in digitalization of the supply chain transformation
- Interactive format Hear world class case studies from leading industry leaders and keynote speakers.
- Find real- world, practical solutions to your challenges from 24+ leading industry thought-leaders
- Accelerate your learning journey by investigating the newest and latest technologies
- Network with peers and exchange ideas in a space, which is new, uncertain and rich in opportunity
- Meet the entire container, transportation and logistics industry together along with Manufacturer, Retail, Consumer Goods, Chemical, Oil & Gas, Food & Beverage, Pharmaceuticals, Govt. Officials, Transportation & Logistics providers, and many more to discuss the latest developments and best practices in the industry, and many more ...

CONFERENCE AGENDA

Day 1	Tuesday, August 27th , 2024 US Central Time Zone (CT)
8:15 AM	Opening Ceremony – US National Anthem, Welcome Speech -
9:30 AM	Redefining Supply Chain Planning with Discrete-Event Dynamic Simulation
	<ul style="list-style-type: none"> ✓ Techniques for using dynamic simulation to make the supply chain more resilient, agile, and efficient ✓ Strategies to use dynamic simulation in predicting and managing disruptions, improving customer experience, and preventing risks ✓ Methods to make informed decisions when faced with supply chain unpredictability - real use cases
10:30 AM	Data-Driven Rules to Manage Volatility in Procurement and Supply Chain
	<ul style="list-style-type: none"> ✓ How Can a Data-Driven Supply Chain Strategy Increase Your Competitive Edge? ✓ Issues with Data Analysis and how to Develop data-driven rules to manage volatility ✓ Balancing cost, service, risk, and ESG elements ✓ Using optimization tools to design the best network of facilities
11:30 AM	LUNCH BREAK NETWORKING & EXPO CONCURRENTLY
1:00 PM	The use of blockchain for supply chain sustainability in – Digital Logistics and the impact of geopolitical factors on supply chain management
	<p>Blockchain technology creates a shared, unchangeable record of transactions, enabling supply chain traceability and transparency. Managers may automate and streamline business processes with blockchain, which lowers costs and boosts productivity.</p> <ul style="list-style-type: none"> ✓ Blockchain technology can promote sustainability and social responsibility in supply chain management by improving environmental performance, promoting fair labor practices, and preventing fraud and counterfeiting. ✓ Geopolitical factors such as trade policies, tariffs, and political instability can significantly impact the supply chain management and blockchain technology can potentially mitigate these risks.
2:00 PM	NETWORKING & EXPO CONCURRENTLY
	Transforming the Demand Planning and Forecasting – Practical Application
	<ul style="list-style-type: none"> ✓ Tools: a review of possibilities with four popular tools (SAP APO, SAS, Kinaxis Rapid Response, Excel) ✓ Process: how the Ways of working should look like in modern Process, concerning the mentioned tools ✓ People: Change management in connection with the two topics above is massive, and there are a lot of blind spots. I can share insight into the experience of two implementations (SAAS in Nestle and Kinaxis RR in Carlsberg)

CONFERENCE AGENDA

03:00 PM	Machine Learning in Supply Chain and Procurement Management– A Systematic Review
	<ul style="list-style-type: none"> ✓ Tools: a review of possibilities with four popular tools (SAP APO, SAS, Kinaxis Rapid Response, Excel) ✓ Process: how the Ways of working should look like in modern Process, concerning the mentioned tools ✓ People: Change management in connection with the two topics above is massive, and there are a lot of blind spots. I can share insight into the experience of two implementations (SAS in Nestle and Kinaxis RR in Carlsberg)s
4:00 PM	Digital Inventory: How to overcome resilience and inflationary issues in supply chains through 3D printing
	<ul style="list-style-type: none"> ✓ With no signs that pressures from disruptions and inflation will abate soon, supply chains must find innovative ways to deal with them ✓ The capabilities of 3D printing have matured significantly over the last few years and new operating models mean that supply chains can today leverage the advantages of digital inventories in a scalable manner, opening opportunities for small and large companies alike ✓ Looking at the benefits and constraints of this approach, this talk will describe how to start on the digital inventory journey.
4:30 PM	The Opportunities and Challenges in Revolutionizing Technology Development in the Supply Chain Industry with a special focus on the Food and Agriculture Supply Chain.
	<p>Smart Technology available to the food and agriculture Supply Chain</p> <ul style="list-style-type: none"> ✓ A Workable Model Making Use of smart technology to Optimize efficiencies and minimize waste in agriculture supply chains ✓ Optimizing on-time pick-up and delivery performance ✓ Optimizing carrier utilization and profitability in partnership with farmers and producers ✓ The importance and function of smart regional command centers and smart regional produce exchange
05:30 PM	End of Day 1

Day 2	Wednesday, August 28th 2024 US Central Time Zone (CT)
9:00 AM	How to apply ML in demand forecasting, sales and operation planning (S&OP), and inventory management.
	<ul style="list-style-type: none"> a. Use cases of AI/ML in Supply Chain b. Ensemble Methods in Predicting Customer's Behavior c. Genetic algorithms for improving delivery times and reducing costs d. ML in production planning and predictive maintenance a. Representation Learning in Supply Chain b. Deep Reinforcement Learning in building effective supply chain optimization modelsA
10:00 AM	Supply Chain design and planning for E-commerce supply chain networks.
	<ul style="list-style-type: none"> ✓ Opti flow is an AI-powered digital twin platform with modules to simulate and optimize parcel networks which are used primarily by E-commerce supply chains. <p>Areas where Opti flow can be used:</p> <ol style="list-style-type: none"> 1. Network Design 2. Constrained supply planning 3. Real-time visibility
11:00 AM	Increasing Supply Chain Visibility with Tracking Devices
	<p>NETWORKING AND EXPO CONCURRENTLY VARIOUS ORGANIZATIONS AAPSCM® MEMBERS ASSEMBLY (ALL CHARTERS)</p>
11:30 AM	LUNCH AND NETWORKING, EXPO AAPSCM® MEMBERS ASSEMBLY (ALL CHARTERS)
	<p>Supply Chain design and planning for E-commerce supply chain networks.</p> <ul style="list-style-type: none"> ✓ Opti flow is an AI-powered digital twin platform with modules to simulate and optimize parcel networks which are used primarily by E-commerce supply chains.
1:00 PM	Networking Assembly, Expo & other conventions
2:00 PM	Building a Responsive Supply Chain through Digitalization
	<ul style="list-style-type: none"> ✓ End-to-end, real-time business flow insights and intelligence ✓ Analyze the impact of IT performance on business outcomes ✓ Applying the concepts of systems theory to analyze supply chain processes ✓ Supply Chain Management Theories ✓ Applications and Limitations of SCM Theories Reengineering and Process change ✓ Quantitative modeling and reengineering ✓ Business process reengineering (BPR) framework for improving performance. ✓ Master the interactions between strategy, technology, processes, and organization

3:00 PM	Reengineering and Process change and Applying work systems theory
	<ul style="list-style-type: none"> ✓ End-to-end, real-time business flow insights and intelligence ✓ Analyze the impact of IT performance on business outcomes ✓ Applying the concepts of systems theory to analyze supply chain processes ✓ Supply Chain Management Theories ✓ Applications and Limitations of SCM Theories Reengineering and Process change ✓ Quantitative modeling and reengineering ✓ Business process reengineering (BPR) framework for improving performance. ✓ Master the interactions between strategy, technology, processes, and organization
04:00 PM	Enable a Risk-Resilient and Sustainable Supply Chain
	<ul style="list-style-type: none"> ✓ Transform your supply chain from cost-conscious and efficient to risk-resilient and sustainable to manage business risk holistically. ✓ Design your supply chain to prevent risk and embed sustainability with three capabilities: ✓ Connect every process within your supply chain and across your business ✓ Contextualize every decision by linking real-time operational and business data ✓ Collaborate with your ecosystem to create digital connections with all your partners
05:00 PM	The Digital Transformation of Your Supply Chain to Reduce Risk and Cost: The Role of ERP and Process Intelligence
	<ul style="list-style-type: none"> ✓ Enterprise Resource Planning (ERP) ✓ Role of ERP in Supply Chain Management ✓ Implementing Supply Chain Management and ERP Integration ✓ Common ERP Components in Supply Chain Management ✓ Process Intelligence ✓ Process Intelligence: What Is It? And Why It Matters ✓ Process Intelligence Mining and Procedure ✓ Process Intelligence Strategies
06:00 PM	END OF DAY 2

Day 3	Thursday, August 29, 2024
09:00 AM	Awards Opening & Announcement of Top 30 - Top 21 Winners in Supply Chain Management
11:30 AM	LUNCH HOUR
01:00 PM	Leadership Stories in Supply Chain - 1 Year of From Source to Sold – Global Excellence awards by country and by regions
02:30 PM	Announcement of Top 20 - Top 11 Winners & Supply Chain Tech
03:30 PM	Announcement of Top 10 - Top 6 Winners & Top Skills
04:00 PM	Revealing Top 5 - Top 1 Winners
04:30 PM	Closing ceremony – Closing Speech Military recession parade

IMPORTANT TOPICS AT THE CONVENTION

'WORLD LOGISTICS PASSPORT' - THE KEY FOR SEAMLESS OPERATIONS OF SUPPLY CHAINS ACROSS THE WORLD

- ✓ World Logistics Passport' - World's first global freight loyal scheme.
- ✓ Vision meets Reality – Enhanced trade flow for the world to flourish smoothly.
- ✓ Why join the World Logistics Passport network – Key Benefits

MOVING TOWARDS A RESPONSIBLE & SUSTAINABLE GLOBAL SUPPLY CHAIN

- ✓ Connection between supply chain growth & sustainable development.
- ✓ Approaches towards a sustainable supply chain - Direct, Indirect, Collaborative & Global.
- ✓ Integration of sustainability initiatives with business operations.

PROCUREMENT - A GAME CHANGER IN SUPPLY CHAIN MANAGEMENT

- ✓ Streamlining processes & cost controlling with Procurement.
- ✓ Fostering supplier collaboration & innovation through Vendor Management.
- ✓ Meeting evolving customer demands & compliance requirements.

BLOCKCHAIN A REVOLUTION IN PROCUREMENT, LOGISTICS & SUPPLY CHAIN

- ✓ Blockchain – A Blessing to Procurement, Logistics & Supply Chain.
- ✓ Driving supply chain transparency through Blockchain.
- ✓ Blockchain Solutions – Adding Resiliency to Supply Chains.
- ✓ Unfolding a Smart Supply Chain for the Future.

KEYNOTE TOPICS

SHARING EXPERIENCES, ENRICHING LEARNING

SUPPLY CHAIN MANAGEMENT: THE BIGGEST STRENGTH OF E-COMMERCE

- ✓ Supply Chain Management – Backbone of the E-commerce industry.
- ✓ Key developments in E-commerce – Top supply chain strategies.
- ✓ Advantages of integrated approach of E-commerce & SCM.
- ✓ Optimized Inventory Management – A Must-Have for SCM in E-commerce.

PROJECT MANAGEMENT - A PREREQUISITE FOR TACKLING PROCUREMENT & SUPPLY CHAIN COMPLEXITY

- ✓ Role of Project Management within procurement & supply chain network.
- ✓ Dealing with varied challenges & complexities – Current & emerging trends.
- ✓ Diverse disciplinary measures for managing business changes successfully.
- ✓ Delivering SCM projects on time & under budget with Project Management.

EXPLORING THE RELATIONSHIP BETWEEN SUPPLY CHAIN MANAGEMENT & HUMAN RESOURCE MANAGEMENT

- ✓ Impact of HRM on supply chain management – Direct & Indirect
- ✓ Human Resources issues in Supply Chain Management.
- ✓ Human Resource strategies for future logistics & SCM.
- ✓ Optimizing People Performance within supply chain network.

THE STRATEGIC ROLE OF WAREHOUSE MANAGEMENT IN THE SUPPLY CHAIN

- ✓ Constant need for improving warehousing operations.
- ✓ Building customer-centric & value-centric warehousing strategies.
- ✓ Forces driving an agile and flexible warehouse design.
- ✓ Redefining warehouse operations with Warehouse Management System.

PROSPECTIVE SPONSORS

CONFERENCE KEYNOTE TOPICS

EXPO – CONFERENCE – CONVENTION

AI-POWERED GLOBAL SUPPLY CHAINS – FORESIGHTS FOR THE NEXT DECADE

- ✓ How to apply ML in demand forecasting, sales and operation planning (S&OP), and inventory management
- ✓ ML in production planning and predictive maintenance
- ✓ Forecasting
- ✓ Advanced analytics techniques using engine downtime predictive modeling example

PLAYING TO WIN IN A DISRUPTIVE WORLD: A DISCUSSION ON PRACTICAL SUPPLY CHAIN TRANSFORMATION

- ✓ Supply chain analytics
- ✓ Industrial Organization
- ✓ Foundations Of Organizational Leadership
- ✓ Cloud Technology and Their applications
- ✓ Introduction To Supply Chain Management Technology
- ✓ Industrial Supply Chain Management
- ✓ Technology Innovation and Integration: Bar Codes To Biometrics

AI, MACHINE LEARNING, AND THE FUTURE OF SUPPLY CHAIN MANAGEMENT

- ✓ Machine learning in Supply Chain
- ✓ Machine learning (ML) techniques
- ✓ Dynamic Regression Forecasting Models
- ✓ Forecasting for Supply Chain Planning and Management
- ✓ Review of Statistical Foundations: Linear Regression
Measuring Demand's Price Elasticity
- ✓ How to apply ML in demand forecasting, sales and operation planning (S&OP), and inventory management
- ✓ ML in production planning and predictive maintenance

RESHORING,
NEARSHORING, AND
FRIENDSHORING.
HOW GEOPOLITICS IS
CHANGING WHERE
AND
HOW YOU MAKE AND
SOURCE MATERIALS.

- ✓ Supply chain segmentation
- ✓ Make vs. buy analytics.
- ✓ Environmental, social, and governance (ESG) strategy
- ✓ Information technology and business processes
- ✓ Global logistics and risk management
- ✓ Coordinated product and supply chain design

PLAYING TO WIN IN A
DISRUPTIVE WORLD: A
DISCUSSION ON
PRACTICAL SUPPLY
CHAIN
TRANSFORMATION

- ✓ Supply chain analytics
- ✓ Industrial Organization
- ✓ Foundations Of Organizational Leadership
- ✓ Cloud Technology and Their applications
- ✓ Introduction To Supply Chain Management Technology
- ✓ Industrial Supply Chain Management
- ✓ Technology Innovation and Integration: Bar Codes To Biometrics

WHERE IS MY
CONTAINER –
VISIBILITY AND
TRACEABILITY OF
MODERN GLOBAL
SUPPLY CHAIN
TOPICS:

- ✓ Business Process Modeling
- ✓ Applying work systems theory
- ✓ Reengineering and Process change
- ✓ Enterprise Resource Planning (ERP)
- ✓ Process Intelligence

FIRESIDE CHAT
ON THE
FUTURE OF
PROCUREMENT

- ✓ Quantitative and Qualitative Process Analysis
- ✓ Essentials in Procurement, Fulfillment, and Production.
- ✓ Technology Support for Business Processes: Workflows & BPMS
- ✓ Managing Processes; Metrics and Dashboard.
- ✓ Governing BPM Efforts; Process Management Maturity

TRANSFORMING
PROCUREMENT:
HARNESSING
COOPERATIVE
MODELS AND
DIGITAL MARKETING
SOLUTIONS TO
ENHANCE SUPPLY
CHAIN RESILIENCE
AND EFFICIENCY

- ✓ Paid Ads Optimization Strategies
- ✓ Neuro-Marketing Fundamentals
- ✓ Search Engine Optimization (SEO)
- ✓ Search Engine Marketing (SEM)
- ✓ Social Media Marketing
- ✓ Content Strategy
- ✓ Web Analytics

FROM PROBLEM TO
SOLUTION: HOW DATA,
SOFTWARE AND
HARDWARE ENABLE THE
FUTURE OF
SUPPLY CHAIN AND
WAREHOUSE
OPERATIONS

- ✓ Review of Multiple Regression and Stepwise Selection of Predictive Variables
- ✓ Forecasting Demand with Multiple Price Elasticities
- ✓ Model Overfitting and Model Cross-Validation
- ✓ Dynamic Regression Forecasting Models

THE AWARD CATEGORIES LIST OF RECOGNIZED AWARDS

1. The Supply Chain Management Excellence Awards
2. The Working Capital & Supply Chain Finance awards
3. Supply and Demand Chain Executive – Top Technology Solutions
4. USA Recognition International Award for Supply Chain Excellence
5. Gartner Power of the Profession awards
6. Supply and Demand Chain Executive – Top Tech Startups
7. The AAPSCM under 40 Excellence in Supply Chain awards
8. The AAPSCM under 30 Excellence in Supply Chain awards
9. Supply and Demand Chain Executive – Professionals to know awards
10. World Procurement Executive Awards
11. World Supply Chain and Logistics Executive Awards
12. 2024 Saudi Arabia Procurement and Supply Chain Excellence Awards
13. AAPSCM® Columbia, USA Charter Gold Medal Recognition award
14. The USA National GO (Government Opportunities) award
15. Supply and Demand Chain Executive – Top supply chain projects recognition award
16. Supply Chain Government Service Excellence awards
17. Procurement, Logistics, and Supply Chain Award for excellence
18. Supply Chain Professional to Admire Awards
19. Procurement and Supply Chain Manager to admire award
20. Supply chain management executive – Women in supply chain award

FOR COMPANY'S AWARD

1. Procurement Transformation Practices Award
2. Supply Chain Technology Transformation Award
3. World Best Supply Chain Innovation award
4. Supplier Diversity and Innovative Award
5. Procurement and Supply Chain Sustainability Award
6. Logistics and Technologically Innovative Award
7. Procurement Technology Innovative Award
8. Pioneer Supply Chain Artificial Intelligence Award
9. Executive of the Year Award
10. Project Leader of the Year
11. Lifetime Achievement Award
12. Supply Chain Best Digital Marketing Company of the Year
13. Best Supply Chain Process Intelligence Company of the Year Award

RECOGNITION AWARD CATEGORIES

1. THE SUPPLY CHAIN MANAGEMENT EXCELLENCE AWARDS

Are bestowed upon organizations that have showcased exemplary performance and innovation in the realm of supply chain management. These prestigious accolades serve as a testament to companies that have successfully optimized their supply chain operations, leading to enhanced efficiency and cost savings, all while delivering unparalleled levels of customer satisfaction. Through the presentation of best practices and success stories, the Supply Chain Management Excellence Awards inspire and motivate other industry players to strive for excellence in their supply chain management endeavors.

2. THE WORKING CAPITAL & SUPPLY CHAIN FINANCE AWARDS

Acknowledge the remarkable achievements of companies that have excelled in optimizing their working capital and effectively managing their supply chain finance strategies. These esteemed awards shine a spotlight on organizations that have implemented innovative financial solutions to bolster cash flow, reduce costs, and mitigate risks across their supply chain. By recognizing the efforts and accomplishments of these companies, the Working Capital & Supply Chain Finance Awards promote the adoption of efficient financial practices and foster collaboration between suppliers, buyers, and financial institutions, thereby optimizing working capital and fortifying the overall supply chain ecosystem.

3. THE SUPPLY AND DEMAND CHAIN EXECUTIVE'S TOP TECHNOLOGY SOLUTIONS AWARD

Is a recognition bestowed upon forward-thinking technology providers who have developed cutting-edge solutions to address the intricate challenges faced by supply chain and demand planning professionals. These highly esteemed awards highlight companies that have leveraged advanced technologies such as artificial intelligence, machine learning, blockchain, and predictive analytics to optimize supply chain processes, elevate visibility, foster collaboration, and drive operational efficiency.

4. THE USA RECOGNITION INTERNATIONAL AWARD

For Supply Chain Excellence is a prestigious accolade that pays tribute to exceptional achievements and leadership within the realm of global supply chain management. This esteemed award celebrates organizations that have showcased exemplary performance, strategic vision, and sustainable practices in effectively managing their supply chain operations. By acknowledging excellence on an international scale, this award inspires organizations to strive for best-in-class supply chain practices while facilitating the exchange of knowledge and expertise across borders.

5. THE GARTNER POWER OF THE PROFESSION AWARDS

Are designed to acknowledge and honor individuals, teams, and organizations that have made noteworthy contributions to the realm of supply chain management. These prestigious awards serve to highlight professionals who have exemplified exceptional leadership, displayed innovative thinking, and embarked upon transformative endeavors that have significantly advanced the field of supply chain excellence. By showcasing the achievements of these industry leaders, the Gartner Power of the Profession Awards fulfill the dual purpose of inspiring and educating others, thereby playing a pivotal role in shaping the future of supply chain management.

6. THE SUPPLY AND DEMAND CHAIN EXECUTIVE'S TOP TECH STARTUPS AWARD

Serves as a platform to showcase and recognize technologically innovative and disruptive startups that are revolutionizing the landscape of supply chain management. These distinguished awards aim to honor startups that have successfully developed groundbreaking solutions to address critical challenges faced in supply chain operations, such as inventory management, logistics optimization, demand forecasting, and sustainability. The underlying objective of these awards is to highlight these emerging companies and foster a culture of collaboration and innovation within the supply chain industry as a whole.

RECOGNITION AWARD CATEGORIES

7. THE AAPSCM UNDER 40 EXCELLENCE IN SUPPLY CHAIN AWARDS

Have been established to pay tribute to young professionals under the age of 40 who have exhibited exceptional skills, leadership qualities, and noteworthy achievements in the field of supply chain management. These prestigious awards serve as a platform to celebrate the talent and potential of the next generation of supply chain leaders. By recognizing their contributions to driving innovation, efficiency, and sustainability within supply chain operations, these awards aim to inspire and motivate others to follow suit, ultimately shaping the future of the industry.

8. THE AAPSCM UNDER 30 EXCELLENCE IN SUPPLY CHAIN AWARDS

Are aimed at acknowledging outstanding individuals under the age of 30 who have demonstrated exceptional aptitude, dedication, and accomplishments in the field of supply chain management. These esteemed awards are designed to celebrate the achievements of young professionals who have made a significant impact on their respective organizations and the industry as a whole. By doing so, they serve as an inspiration to others to pursue excellence in supply chain management right from the early stages of their careers.

9. THE SUPPLY AND DEMAND CHAIN EXECUTIVE'S PROFESSIONALS TO KNOW AWARDS

Are bestowed upon exceptional individuals who have made significant contributions to the supply chain industry. These esteemed awards recognize executives, thought leaders, and influencers who have demonstrated expertise, thought leadership, and a proven track record of success in driving innovation and transformation within their organizations and the wider supply chain community.

10. THE WORLD PROCUREMENT EXECUTIVE AWARDS

Celebrate procurement executives who have demonstrated exceptional leadership, strategic thinking, and innovation in the field of procurement. These awards recognize individuals who have implemented best practices, driven cost savings, fostered supplier relationships, and contributed to the overall success of their organizations' procurement functions on a global scale.

11. THE WORLD SUPPLY CHAIN AND LOGISTICS EXECUTIVE AWARDS

Honor outstanding executives who have made significant contributions to the field of supply chain and logistics management. These awards celebrate individuals who have demonstrated exceptional leadership, strategic vision, and operational excellence in optimizing supply chain networks, improving logistics efficiency, and driving sustainable practices.

12. THE 2023 SAUDI ARABIA PROCUREMENT AND SUPPLY CHAIN EXCELLENCE AWARDS

Recognize organizations in Saudi Arabia that have achieved excellence in procurement and supply chain management. These awards celebrate companies that have demonstrated innovation, efficiency, and best practices in their procurement and supply chain operations, contributing to the growth and development of the Saudi Arabian economy.

13. THE AAPSCM[®] COLUMBIA, USA CHARTER GOLD MEDAL RECOGNITION AWARD

Is a prestigious honor bestowed upon individuals or organizations who have made outstanding contributions to the field of supply chain management. This award recognizes excellence in leadership, innovation, and the advancement supply chain practices, serving as a symbol of the highest level of achievement and recognition within the industry.

14. THE USA NATIONAL GO AWARD

Acknowledges organizations that have excelled in government procurement and supply chain management. These awards recognize companies that have demonstrated exemplary performance in delivering products and services to governmental agencies, showcasing efficiency, transparency, and compliance with government procurement regulations.

of

RECOGNITION AWARD CATEGORIES

14. THE USA NATIONAL GO AWARD

Acknowledges organizations that have excelled in government procurement and supply chain management. These awards recognize companies that have demonstrated exemplary performance in delivering products and services to governmental agencies, showcasing efficiency, transparency, and compliance with government procurement regulations.

15. SUPPLY AND DEMAND CHAIN EXECUTIVE – TOP SUPPLY CHAIN PROJECTS RECOGNITION AWARD

Is a celebration of organizations that have effectively executed remarkable supply chain projects. These awards shine a spotlight on projects that have achieved notable advancements in logistics, sourcing, sustainability, inventory management, and customer satisfaction. Through the presentation of these successful projects, this award fosters the sharing of knowledge and serves as inspiration for other organizations to implement innovative initiatives within their supply chains.

16. THE SUPPLY CHAIN GOVERNMENT SERVICE EXCELLENCE AWARDS

Pay tribute to government agencies and departments that have exhibited excellence in supply chain management. These awards are dedicated to celebrating organizations that have successfully implemented effective strategies, streamlined processes, and achieved remarkable outcomes in the procurement, logistics, and management of goods and services within the public sector. By honoring these agencies, the awards serve to promote best practices and encourage continual improvement within government supply chain operations.

17. THE AWARD FOR EXCELLENCE IN PROCUREMENT, LOGISTICS, AND SUPPLY CHAIN RECOGNIZES BOTH INDIVIDUALS AND ORGANIZATIONS

That have demonstrated outstanding performance and achievements within the realms of procurement, logistics, and supply chain management. These awards aim to acknowledge excellence in strategic sourcing, supplier relationship management, transportation, warehousing, and overall optimization of the supply chain. By recognizing these exceptional accomplishments, the award serves to inspire professionals and organizations to strive for excellence and continually enhance their procurement and supply chain practices.

18. THE SUPPLY CHAIN PROFESSIONAL TO ADMIRE AWARDS

Are dedicated to acknowledging exceptional individuals who have made a significant impact within the field of supply chain management. These awards serve to celebrate professionals who have demonstrated exceptional leadership, innovation, and dedication in driving supply chain excellence. Through their remarkable achievements, these admired professionals not only inspire others but also contribute to the advancement of the supply chain industry as a whole.

19. THE PROCUREMENT AND SUPPLY CHAIN MANAGER TO ADMIRE AWARD

Pays tribute to outstanding managers who have demonstrated exemplary leadership and achievements within the realms of procurement and supply chain management. These awards are dedicated to celebrating individuals who have successfully implemented strategic initiatives, optimized procurement processes, effectively managed supplier relationships, and delivered measurable results. By recognizing these exceptional managers, the award serves to encourage professionalism and excellence within procurement and supply chain management roles.

20. THE WOMEN IN SUPPLY CHAIN AWARD

Is an esteemed accolade that acknowledges the accomplishments and contributions of female professionals in the realm of supply chain management. These commendations honor women who have exhibited remarkable expertise, leadership, and ingenuity in propelling supply chain excellence. Through the recognition of women's achievements in supply chain management, this award actively fosters gender diversity, equality, and inclusivity within the industry.

in

THE COMPANY'S AWARDS

THE AWARD FOR PROCUREMENT TRANSFORMATION PRACTICES .

Acknowledges organizations that have effectively implemented transformative practices in their procurement processes. These awards showcase companies that have revolutionized their procurement functions by adopting innovative strategies, streamlining operations, and achieving significant cost savings. By honoring these organizations, the award inspires others to embrace procurement transformation and emphasizes the importance of continuous improvement in procurement practices.

THE SUPPLY CHAIN TECHNOLOGY TRANSFORMATION AWARD

Celebrates organizations that have utilized technology to drive substantial transformations in their supply chain operations. These awards recognize companies that have successfully implemented advanced supply chain technologies such as automation, artificial intelligence, IoT, and blockchain to enhance efficiency, visibility, and collaboration. By showcasing the achievements of these organizations, the award encourages the adoption of technology driven solutions and inspires others to embark on their supply chain technology transformations.

THE WORLD BEST SUPPLY CHAIN INNOVATION AWARD

Honors groundbreaking innovations that have had a significant impact on the supply chain industry. These awards highlight pioneering technologies, strategies, or practices that have revolutionized supply chain operations, improved efficiency, and delivered exceptional results. By recognizing the best supply chain innovations globally, the award promotes innovation, encourages continuous improvement, and drives the industry forward.

THE SUPPLIER DIVERSITY AND INNOVATION AWARD

Acknowledges organizations that have demonstrated a commitment to supplier diversity and fostered innovative partnerships with diverse suppliers. These awards celebrate companies that have implemented inclusive procurement practices and have actively sought out and engaged diverse suppliers. By recognizing these efforts, the award promotes supplier diversity, encourages equal opportunities, and fosters innovation through diverse perspectives and partnerships.

THE PROCUREMENT AND SUPPLY CHAIN SUSTAINABILITY AWARD

Is designed to acknowledge and commend organizations that have displayed commendable leadership and excellence in incorporating sustainability principles into their procurement and supply chain practices. These esteemed accolades celebrate companies that have successfully implemented sustainable sourcing methods, reduced their environmental impact, and embraced ethical and socially responsible practices throughout their supply chains. By bestowing recognition upon these organizations, the award serves as an inspiration to others, emphasizing the vital role that procurement and supply chain management play in creating a more sustainable future.

THE LOGISTICS AND TECHNOLOGICALLY INNOVATIVE AWARD

Has been established to recognize organizations that have demonstrated excellence in the realm of logistics management and have embraced technological innovations to optimize their logistics operations. These prestigious awards celebrate companies that have effectively leveraged advanced logistics technologies, such as real-time tracking, predictive analytics, and autonomous systems, to enhance the efficiency of their supply chains, improve customer service, and drive cost savings. By honoring these notable achievements, the award seeks to encourage the wider adoption of innovative logistics practices and cutting-edge technologies.

RECOGNITION AWARD CATEGORIES

THE PROCUREMENT TECHNOLOGY INNOVATIVE AWARD

Serves as a platform to acknowledge and appreciate companies that have developed and implemented innovative procurement technologies, thereby transforming their procurement processes and enhancing overall efficiency. These distinguished awards shine a spotlight on technological solutions such as e-procurement platforms, supplier management systems, and spend analytics tools, which have revolutionized the procurement function.

By showcasing these remarkable innovations, the award aims to promote the widespread adoption of cutting-edge procurement technologies and encourage organizations to embrace digital transformation in their procurement practices.

THE PIONEER SUPPLY CHAIN ARTIFICIAL INTELLIGENCE AWARD

Is a prestigious accolade that celebrates organizations that have successfully harnessed the power of artificial intelligence (AI) technologies to revolutionize their supply chain operations. These esteemed awards recognize companies that have implemented AI-powered solutions to optimize various aspects of their supply chains, including demand forecasting, inventory management, supply chain analytics, and automation. By honoring these trailblazers in AI adoption, the award seeks to inspire further exploration and adoption of AI technologies in supply chain management.

THE EXECUTIVE OF THE YEAR AWARD

Is a distinguished honor that acknowledges outstanding supply chain executives who have demonstrated exceptional leadership, strategic vision, and a significant impact on their organizations. These prestigious awards celebrate executives who have successfully driven supply chain excellence, innovation, and transformation within their respective organizations. By bestowing recognition upon these exceptional individuals, the award highlights the critical importance of strong leadership in shaping successful supply chain strategies and driving organizational success.

THE AWARD FOR PROJECT LEADER OF THE YEAR

Recognizes exceptional individuals who have demonstrated exemplary leadership and project management skills in successfully driving supply chain projects. These awards celebrate project leaders who have effectively planned, executed and delivered projects that have had a significant impact on the performance of their organization's supply chain. By acknowledging and honoring these leaders, the award promotes excellence in project management and encourages the development of effective leadership skills within the supply chain industry.

THE LIFETIME ACHIEVEMENT AWARD

Is a celebration of individuals who have made significant contributions to the field of supply chain management throughout their careers. These awards honor professionals who have demonstrated exceptional leadership, innovation, and impact on the industry. By recognizing their lifetime achievements, the award acknowledges the valuable contributions of these individuals and their enduring legacy in advancing the field of supply chain management.

RECOGNITION AWARD CATEGORIES

THE AWARD FOR SUPPLY CHAIN BEST DIGITAL MARKETING COMPANY OF THE YEAR

Acknowledges companies that have demonstrated excellence in digital marketing within the supply chain industry. These awards celebrate organizations that have effectively utilized digital marketing strategies, such as social media, content marketing, and search engine optimization, to promote their supply chain products or services, engage with customers, and drive business growth. By recognizing the best digital marketing companies, the award encourages innovation and creativity in marketing within the supply chain sector.

THE AWARD FOR BEST SUPPLY CHAIN PROCESS INTELLIGENCE COMPANY OF THE YEAR

Recognizes companies that have excelled in leveraging process intelligence to optimize and improve their supply chain operations. These awards celebrate organizations that have implemented advanced process mining, analytics, and optimization techniques to gain insights into their supply chain processes, identify bottlenecks, and drive operational efficiency. By honoring these companies, the award highlights importance of process intelligence in supply chain management and encourages other organizations to utilize data-driven insights to enhance their processes and performance.

ABOUT THE ORGANIZER

THE AMERICAN ASSOCIATION OF PROCUREMENT, SUPPLY CHAIN AND TOURISM MANAGEMENT PROFESSIONALS (AAPSCM)[®]

The American Association of Procurement, Supply Chain and Tourism Management Professionals, otherwise known as the 'American Association of Procurement and Supply Chain Management (AAPSCM)[®]' is the pioneer and presently the only chartered American non-profit 501(c)(3) trade association issuing professional certifications in the combined areas of Procurement, Supply chain, and Tourism Management.

We offer thirteen (13) certifications that recognize knowledge and competency for our Management Professionals in different and distinct areas representing both professionals and managerial certified skills. Salaries and career opportunities for AAPSCM[®] show that employers recognize the value delivered by trained practitioners. That recognize knowledge and competency as follows:

- ✓ American Certified Procurement Professional (ACPP)[®]
- ✓ American Certified Procurement Manager (ACPM)[®]
- ✓ American Certified Supply-Chain Professional (ACSCP)[®]
- ✓ American Certified Supply-Chain Manager (ACSCM)[®]
- ✓ American Certified Tourism Professional (ACTP)[®]
- ✓ American Certified Tourism Manager (ACTM)[®]
- ✓ American Certified Supply Chain Analyst (ACSCA)[®]
- ✓ American Certified Supply Chain Technology Managers (ACSCT)[®]
- ✓ American Certified Digital Marketing Experts (ACDME)[®]
- ✓ American Certified Data Analytics Managers (ACDSM)[®]
- ✓ American Certified Managers in Logistics, Transportation, and Distribution (ACLTD)[®]
- ✓ American Certified Business Process and Fulfilment Managers (ACBPF)[®]
- ✓ American Certified Supply Chain Artificial Intelligence Analyst (ACSAI)[®]
